 - a) Where the student is under 18 years of age, the principal shall refer the matter to the parents, with the recommendation that they seek consultation with a medical doctor and with other appropriate agencies (i.e.: Birthright, Right to Life, Columbus House);
 - b) Where a student is 18 years of age or over, the same recommendation shall be made to the student and to the parents but only with the student's consent.
4. Upon the agreement of this Board to accept certain health programs and services, no person or organization that operates a school in the health unit served by the Board of Health shall provide or ensure the provision of the health program or service to a pupil in the school without the approval of the Medical Officer of Health for the Health Unit.

Note: This policy does not preclude counselling by the classroom teacher, nor teachers of exceptional students; nor does it preclude the teaching of health related issues by the teachers of religious education and physical education.
